

NCAL Rehab Therapists Support PAs!

# KP NCAL PA BARGAINING

**UPDATE #5: MARCH 21, 2024**

This week's bargaining sessions brought the NCAL PAs team together on Wednesday, March 20, to meet as a team, followed by a productive meeting with management on Thursday, March 21.

Building on the momentum of previous sessions, our discussions with management at the bargaining table covered several crucial topics, including provisions for nursing mothers, seniority, job bidding and filling, union representation, and non-discrimination.

These conversations are pivotal in ensuring that our workplace reflects the respect and support our profession deserves and directly impact our ability to provide the highest quality of care to our patients.

We appreciate the continued support and solidarity shown by our members through the photos shared on Blue Thursdays. These collective actions are instrumental in reinforcing our unity and determination throughout this bargaining process. Thank you for standing with us as we continue to strive for a fair and comprehensive contract.
